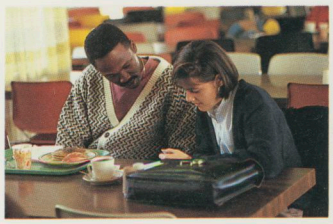
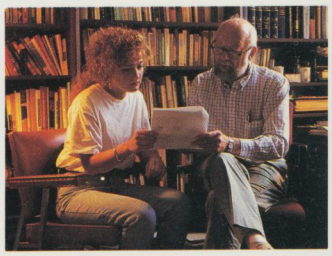
LAKE FOREST COLLEGE

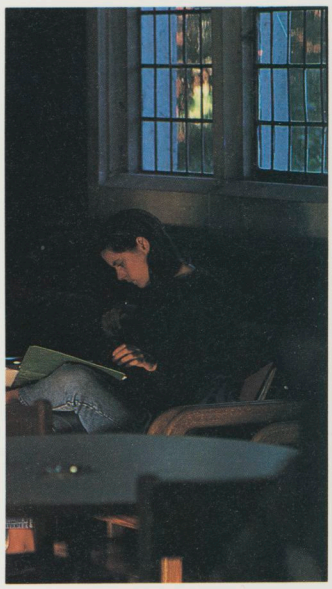
LIBERAL ARTS: THE MOST PRACTICAL EDUCATION IN THE WORLD

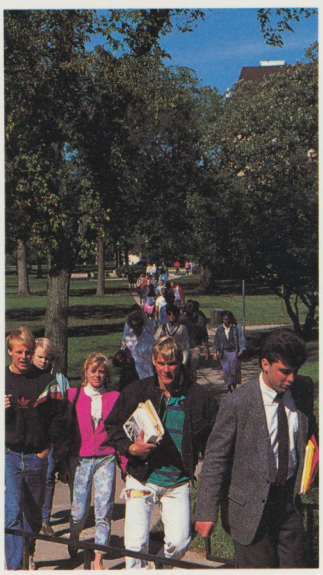




"Lake Forest has the special advantages of a residential, undergraduate college—small classes, more direct and personal contact between students and professors, informality, a lot of personal freedom. But nothing much happens unless you come with a sense of adventure, an openness to try new things, make some commitments, get involved. When that happens, you will have experiences that will change you. You'll go farther than you ever thought you could. Fortunately, Lake Forest is successful in making education what it is and should be—an exciting experience."

Eugene Hotchkiss III, President

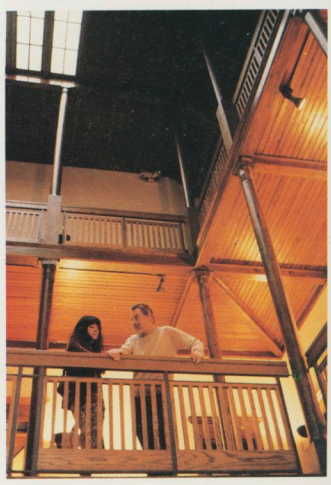


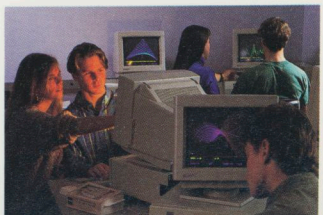


Education may best be defined through opportunity and experience. Discovering for yourself your own unique and distinct capabilities is what a Lake Forest education is all about.

Lake Forest College offers a curriculum that combines requirements for breadth and depth of experience in the liberal arts and sciences with freedom of choice in designing an individual program of study. From the Freshman Studies Courses to the Senior Seminars, the curriculum emphasizes critical, analytical thinking and effective communication in writing and speaking. There are plentiful opportunities for interdisciplinary exploration and independent academic work. We encourage you to expand your horizons and integrate your studies throughout your college years.

Lake Forest will prepare you for successful careers, but it is, frankly, equally proud to help prepare you for life.





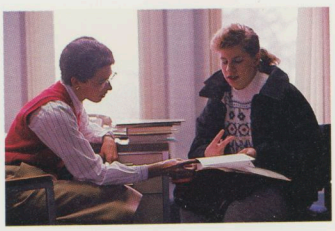
THE STUDENTS: AMBITIOUS, TALENTED, FRIENDLY AND DIVERSE

There are about 1000 Lake Forest College students. Representing 45 states and 23 foreign countries, students come from all parts of the country and the world. About 10 percent are from American ethnic groups. Lake Forest students represent a wide variety of socio-economic backgrounds. Some come from affluence, some from disadvantage and most from somewhere in between. Their similarities are more important than their differences, however. Together they have come to Lake Forest recognizing that the College provides tremendous opportunities. They know that by putting forth a serious effort and by taking an active role in their education, they will be shaping a more confident and satisfying future.

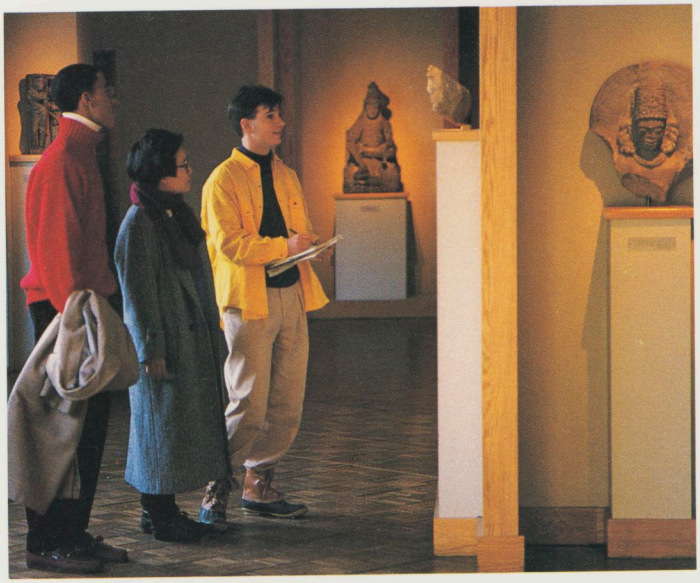
Lake Forest College takes its responsibility seriously. It, accordingly, treats students as the adults they are and fosters the principle that responsibility and freedom go hand in hand.

THE FACULTY: CARING, ACCESSIBLE, EXPERTS IN THEIR FIELDS

The most important quality a teacher can have is quality as a human being. No one teaches well who cannot be taught and there never was an inspiring teacher in the classroom who wasn't an inspiring person outside of it. Lake Forest is proud of its faculty. About 95 percent of the full-time teaching faculty have Ph.D.s. A number have been nationally and internationally recognized. They will be part of your life as a student because they are so much a part of the life at Lake Forest—some actually live on campus.



CAMPUS LIFE: MORE OPPORTUNITIES THAN YOU'D EVER EXPECT



Choosing how to best use your free time at Lake Forest is often a tough decision. From college sponsored activities such as on-campus movies, concerts, an impromptu walk into town or an evening in Chicago—there's a lot going on.

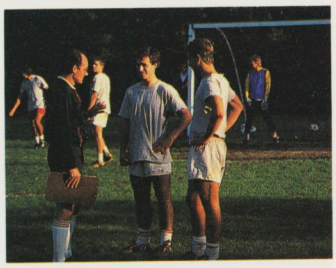
Students make things happen and directly influence both academic and student life. Student government is active and involved. Student life is largely governed by the elected representatives to Student Government and joint student-faculty committees. Students also participate on academic committees and judicial bodies.

The Residence Halls

Your first friends (and maybe your best friends) will probably be the people you meet in your dorm.

Ninety percent of the students live on campus in the ten residence halls. Deerpath houses the majority of freshmen, although they may choose among a number of housing options. Trained student resident assistants are available for informal counseling and guidance. This group has general responsibility for residence hall activities and programs generated by the students themselves.

Some space is set aside for special interest groups, students who want to live together because they enjoy a specific interest, such as Red and Black, the academic residence.



CHICAGO: ALL THE ADVANTAGES OF A WORLD CLASS CITY

Activities

Maybe the best way to show what your opportunities are is simply to list them. Of course, no list takes into account the variety of spontaneous things students do—picnics, bike rides, a day at the Art Institute of Chicago and the like. You can discover and enjoy those yourself.

Government: General Assembly, Executive Committee of Student Government, residence hall government, joint student-faculty committees on Academic Policies, College Council, Academic Long-Range Planning, College Life, and Speaker/Lecture/Fine Arts.

Media: *The Stentor,* (weekly newspaper), *Tusitala* (literary magazine), *Collages,* (foreign language department magazine), *The Forester,* (yearbook), WMXM-FM, (campus radio station).

The Arts: Choir, film group, Garrick Players (drama group), Instrumental Ensembles. Durand Institute contains studios for drawing, painting, ceramics, sculpture, printmaking and photography.

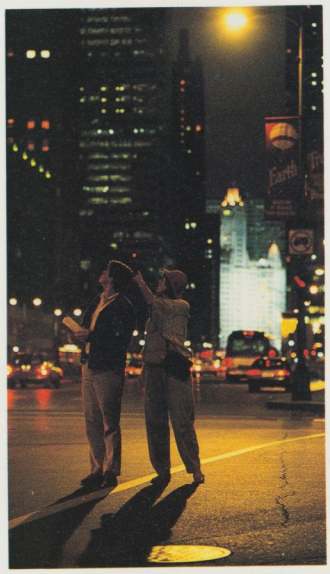
Campus Events: The Campus Activities Office coordinates a schedule of on-campus events which include national and local speakers, concerts and comedians. The Office also keeps students in touch with Chicago area events by securing tickets and arranging transportation into the city. Peace Week, Black History Month, Latin America Week, AWE (Alternative Weekend Entertainment), and the spring celebration, Festival of Ra, have become annual events anticipated by the entire campus.

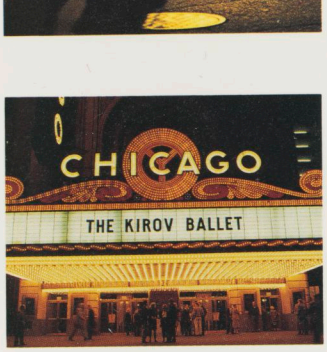
Intercollegiate competition: Men's and women's teams participate in NCAA Division III sports and the College is a member of the Midwest Collegiate Athletic Conference. Varsity sports for men are basketball, football, hockey, lacrosse, soccer, tennis, swimming and diving. Women's sports include basketball, softball, soccer, tennis, volleyball, swimming and diving.

Intramural competition: Men: Basketball, golf, hockey, racquetball, softball, squash, swimming, tennis, touch football and volleyball. Women: Basketball, ice hockey, softball, tennis, racquetball, soccer, squash and volleyball.

Club Sports: Sailing, baseball, cheerleading, pom pons, women's ice hockey, women's lacrosse, fencing, running club.

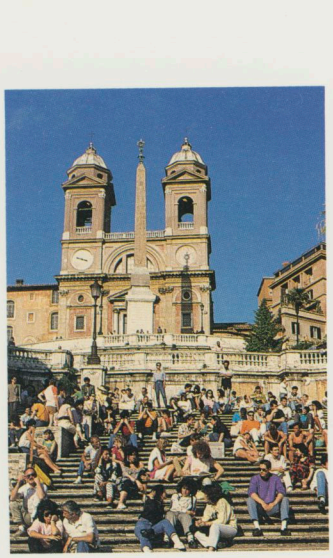
Clubs: Other organizations registered with Campus Activities include Amnesty International, Ambassadors (tour guides), Black Students Organization, Asian Club, Hispanic Club, Interfaith Center, Social Services Organization, Best Buddies, I Have A Dream Program, Women's Issue Table, Model United Nations, League for Environmental Awareness and Protection, political organizations and several academic and departmental honorary societies, including Phi Beta Kappa and Sigma Xi.

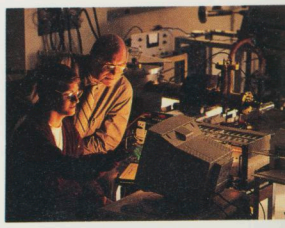




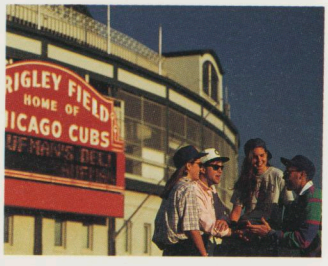
Chicago is one of the great cities of the world. Because it is only 50 minutes from Lake Forest by commuter train, students benefit immensely. Its educational and recreational assets are of great significance to the College community. Museums, libraries, shopping, nightlife, major league sports—it's all there. The best part is that you don't need a car; the commuter train station is only a ten minute walk from campus.

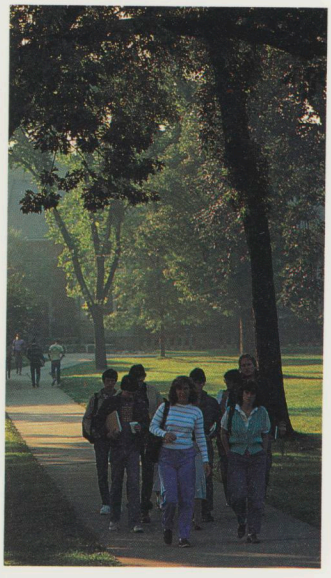
Chicago's O'Hare Airport, one of the world's busiest, is only 40 minutes from campus. So, it probably won't surprise you to learn that Lake Forest is only a few hours by air from virtually anywhere in the U.S. In fact, many students have found that with airfare and time considered Lake Forest is a more logical option than many schools that may be closer to home.





LAKE FOREST: THE CAMPUS AND COMMUNITY

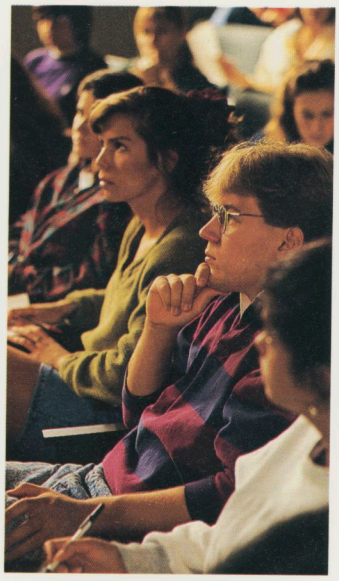


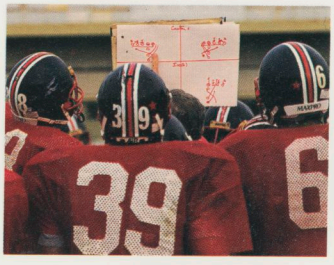


The town of Lake Forest (population 18,000) is a beautiful, protected lakeside community 25 miles north of Chicago and Evanston, 30 minutes south of the Wisconsin border. The campus is located on 107 wooded acres in a residential area of town between the business section and Lake Michigan. Both are less than a ten minute walk from campus.

Lake Forest's facilities—classroom, laboratory, library, recreational—are well-equipped and efficient. *Durand Institute,* recently renovated, is a fine arts and humanities center which includes an art gallery for college and community exhibits. The *Computer Center* is equipped with a MicroVAX 4300 and MicroVAX 3400 computer, linked to 55 remote terminals. There are also more than 250 micro-computers located around campus. Locations include the library, science building, residence halls and other classroom facilities. There is 24 hour a day, seven day a week access. The *Donnelley Library* and the *Freeman Science Library* house over 300,000 volumes. Both facilities are tied by computer and direct delivery to 25 other academic and research libraries in Illinois including the library at the University of Illinois at Champaign-Urbana. In 1990 an addition to the *Johnson Science Center* increased laboratory space for student/faculty research by forty percent. The *Sports Center* houses a 25 meter pool, basketball courts, handball/racquetball and squash courts, weight room and saunas. There is an indoor ice rink with adjacent football, baseball and soccer fields, as well as tennis courts. The *Commons* houses the dining hall, game room, snack bar, bookstore, campus radio station, student activity offices and lounges.

ADMISSIONS





Admission to Lake Forest College is competitive. The SAT or ACT is required. However, the quality of the high school preparation, in breadth and depth, is of primary concern.

It is recommended that a candidate present four years or its equivalent in English, three years of mathematics, study in one or more foreign languages, and from two to four year's work in both social science and natural science.

Admissions and financial aid decisions are announced in late March. The College subscribes to the Candidates' Reply Date Agreement. Early Decision, Early Admission and Deferred Admission Programs are available. A personal interview is recommended.

FINANCIAL AID

The College's philosophy is that, to the limit of its resources, no student who is otherwise qualified should be prevented from attending because of financial limitation. All aid is based upon financial need. Currently, fifty-five percent of the student body receives financial assistance from an annual budget of over six million dollars. The *average* aid award in the fall of 1991 was in excess of $13,000.

The College is also committed to providing prospective students and their parents with *quick* access to accurate information about the amount of aid for which they may qualify. To this end, an institutional aid application, the Lake Forest Application for Financial Assistance, is available. This form may be filed at *anytime* in the student's senior year. The College will notify a student of his/her estimated financial need within two weeks of the receipt of the Lake Forest Application for Financial Assistance. This application (LFAFA) is available from the Office of Admissions upon request.
